

4Pharma is a contract research organization providing medical research services. Our core business areas include biostatistics, clinical data management, data warehousing, information technology and medical writing. We are expanding our operations and therefore seek 2-3 new colleagues to join our team in Finland.

Senior Statistical Programmer / Data standards Specialist / Data Manager

Responsibilities and tasks

The tasks will be tailored based on the candidate profile. For Senior Statistical Programmer / Data Standards Specialist the assignments could include data standards conformance checks, define.xml creation, creating/specifying ADAM datasets, creating outputs (TFLs), validating outputs, etc.

For a Data Manager the tasks would include operative clinical data management, creating SDTM-datasets, data standards conformance checks, annotation of CRFs, etc.

Tasks also include internal process development and possibly business development tasks.

The new employees are a part of our Statistics or Data Management teams and report to the Head of Statistics or Head of Data Management. Location either Turku or Helsinki based on individual preference.

Your skills

You have a MSc or an equivalent degree in relevant statistics, computer science, programming or natural science discipline. Previous experience in pharmaceutical or CRO sectors is highly appreciated.

You should have solid previous experience of SAS programming. Understanding of clinical databases and data standards is considered as a major advantage. For the Data Manager role experience with EDC is required.

Excellent skills in both written and spoken English are needed. Finnish or Swedish language skills are an advantage. As a person, you are thorough, happy to take on responsibilities, proactive and team player. You are focused on quality always having customer perspective on the top of mind.

What we offer

We offer you an exciting and challenging journey in a modern and flexible company with a friendly working environment. Continuous training for further development is an essential part of our company culture.

We look forward hearing from you!

Please send your CV and cover letter by 20.5. to info@4pharma.com

About 4Pharma

Oy 4Pharma Ltd was established in 2002 and is today located in Turku and Helsinki. 4Pharma provides research services to pharmaceutical, biotechnology, medical device and food companies.
